

Summary

Mobile Developer with 2.8+ years of experience in crafting cross-platform applications using React Native, significantly enhancing user engagement and app performance. Demonstrates a collaborative spirit by working closely with design, backend, and product teams, achieving a 30% reduction in crash rates and fostering a culture of knowledge sharing. Proficient in TypeScript, Redux, Zustand, REST APIs, and AWS CLI, with hands-on experience in push notifications (FCM/OneSignal) and UI performance optimization with FlatList. Committed to delivering innovative, scalable solutions while mentoring peers and driving growth in Agile/Scrum environments.

Work Experience

Corenet Tech

React Native Developer

April 2025 - Present

- Launched 3 production-grade React Native applications, boosting monthly active users by 22%.
- Accelerated app responsiveness by 35% through load time reduction and optimized rendering logic.
- Worked in an Agile/Scrum environment with designers and product managers to streamline UX workflows, reducing churn by 18%.
- Guided junior developers through mentorship and peer code reviews, raising overall code quality.

- Projects
- Grabit – [Play Store](#) | [App Store](#)** – Hyperlocal deal discovery app offering real-time offers within a 5km radius. Designed QR-based offer system, increasing engagement by 25%. Implemented in-app analytics to track coupon views and redemptions for actionable insights.
 - Grabit Business – [Play Store](#) | [App Store](#)** – Merchant platform for geo-targeted campaigns using coins and push/SMS notifications. Built campaign engine used by 1,000+ businesses and created dashboards for redemption tracking, improving marketing ROI.

Tech Stack:

JavaScript, TypeScript, React Native, Redux, Expo, REST APIs, Firebase, AWS CLI, Google Maps API, Payment Gateways

Shri Hari Info Solutions

React Native Developer

Nov 2022 - March 2025

- Developed and scaled applications across retail, agri-tech, and spiritual sectors, driving a 40% increase in total installs.
- Reduced app instability by resolving memory leaks, applying structured debugging, and optimizing resource usage.
- Improved responsiveness and reliability by refactoring critical app flows and enhancing API integrations.
- Collaborated closely with backend teams to reduce API response time and optimize data handling.
- Implemented push notifications via Firebase Cloud Messaging and optimized FlatList rendering, improving user engagement.

- Projects
- Hariprabodham Vrund – [Play Store](#) | [App Store](#)** – Devotional streaming app with offline playback, playlists, and personalized feeds. Achieved 4.9+ Play Store rating and increased retention rates.
 - Krisiyukta – [Play Store](#)** – Agri-tech app for farmers with weather data, market prices, and community features. Built offline-first multilingual UI and integrated live data APIs.
 - Wardrobe App** – Smart outfit management app with drag-and-drop calendar and tagging system for outfit planning.
 - Akshar Yatra** – Event management app with offline check-in and attendance tracking for spiritual gatherings, reducing manual work.
 - eRemotehire** – AI-powered hiring platform with dashboards, resume parsing, and job matching logic. Enhanced UI responsiveness and reduced load times.
 - OptoX** – Blockchain-based P2P crypto transaction platform with wallet authentication and secure real-time trading interface.

Tech Stack:

JavaScript, TypeScript, React Native, React.js, Next.js, Redux, Expo, REST APIs, Firebase, AWS CLI, Google Maps API, Blockchain, Web3

Education

Veer Narmad South Gujarat University (VNSGU)

8.5 CGPA

Aug 2021 - July 2024
